

2010

Challenges in Aluminium Smelting

- A two day forum for smelter managers
(operational and technical) and industry experts

24th - 25th November 2010

Bahrain

- Designed to discuss the key issues and topics currently affecting the aluminium industry.
- This will be done through a mix of lectures, key note speakers and open dialogue.
- Participants will help decide discussion topics prior to the forum.
Topics of interest may include:
 - environmental issues
 - heat management
 - carbon recovery
 - energy consumption
- To be held on the first two days of the University Postgraduate Qualification in Aluminium Reduction Technology.
